Re: Acceptance of Notice of Intention to Commence Small Mining Operations, Cream Time Quarry,
S/039/009, Sanpete County, Utah

Dear Mr. Jensen:

In reviewing our files, we discovered we have never issued formal acceptance of your Notice for your Cream Time Quarry, which was received in 1996. The project is located in the SE1/4 SW1/4 SW1/4 of Section 8, T20S, R2E, Sanpete County, Utah. Upon receiving your notice, we sent you a deficiency letter requesting a topo map so the site could be located. We never received a response from you; however, since that time Division staff have located and inspected the site. This letter is formal acceptance of your notice as complete.

We have never received an annual report for your project, which is required by law. Enclosed is another annual report form. Please complete the enclosed form (MR-AR) for January 1 - December 31, 1999, and return it to this office by May 10, 2000. If you have records of previous years, please copy the blank form and complete the reports for all years you have record of.

Should you wish to expand your operation beyond the five (5) acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements. Approval of a large mining notice could take from six to twelve months or longer. *Please be advised that during our last inspection performed on April 13, 2000, a GPS measurement determined that your site disturbance is at 4.4 acres.*

Thank you for your cooperation. If you have any questions regarding this letter, please contact me at (801) 538-5310. Best wishes with your continued mining operations.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
